

THE MUNICIPALITY OF KITUI
INTEGRATED DEVELOPMENT PLAN 2020-2025

IDeP REVIEW FY 2022/2023

Vision

A functionally efficient and sustainable Kitui County Headquarters with a vibrant economy that nudge prosperity through rural-urban complementarity.

Mission

To facilitate safe, resilient, inclusive and sustainable urbanization through good governance, quality services delivery, and effective infrastructure.

Foreword

The Constitution of Kenya and the Urban Areas and Cities Act bestows enormous responsibility of managing cities and municipalities upon the boards of Cities and Municipalities. This responsibility calls for these boards to adopt integrated and strategic thinking that allows them to focus on projects that generate significant development impact and multiplier effects if the boards are to achieve any tangible development during their five-year tenure. It is with this responsibility and the desire to offer the best services to the people of Kitui Municipality in mind that the Kitui Municipal Board has developed this Integrated Plan.

The plan covers the period 2020–2025. Being the first integrated plan prepared by the inaugural Kitui Municipal Board, the Plan deliberately lays emphasis on creating the requisite institutional structures that would enable the Board to operate smoothly. The Board believes that it is important to get these structures right from the onset as a precondition for the bigger responsibility bestowed upon it by the Urban Areas and Cities Act and the Kitui Municipal Charter. This emphasis should however not be construed to mean that the Board will not pay attention to other aspects of development of the Municipality. On the contrary, the Board envisages that it will concurrently pursue economic development and infrastructure and service provision alongside laying this foundation for good governance as the key pillars that summarize its responsibility to the people of Kitui Municipality. These pillars are founded in international and national development aspirations, such as the New Urban Agenda, the Kenya Vision 2030 and the bottom up economic transformation agenda.

This plan identifies key strategic projects that will be completed during the 2020–2025 plan period. These projects are in tune with the aspirations of the local development plans. In essence therefore, this integrated plan seeks to steer the Municipality in a clear direction as it charts a common destiny for various development pursuits of the line ministries and other development partners in Kitui County.

Chairperson
Kitui Municipal Board

Acknowledgement

The successful completion of the preparation of the Integrated Development Plan (IDEP) is a land mark for the Municipality of Kitui. This Plan epitomizes the gains of participatory planning and communicates the vision of the people of Kitui town. The plan will be implemented in five years starting from 2020 and ending in 2025. This timeframe gives a window of formulation of policies and implementation of the plan. The strategic plan 2020-2025 is a pioneer and will be very instrumental in setting the foundation for a thriving Municipality. It offers strategies that device new revenue streams as well as boasting the existing ones. The plan is set on ensuring that Sustainable urbanization is achieved while revolutionizing how the major sectors that drive the municipal economy exist symbiotically. The economic viability of the plan will therefore ensure that the potential investors have a blueprint for development. This will be realized by the viable strategies for sustainable development such as land banking in order to ensure that future endeavors such as large scale farming, industrialization, and social housing can be realized.

The successful review of the strategic plan was as a result of concerted efforts and inputs from various individuals. I take this opportunity to thank the Governor of Kitui, His Excellency Dr. Julius Malombe for his support to the review process. I further thank Fredrick Kimanga, County Executive Member for Lands, Housing and Urban development, Evans Mutua, Chief Officer Urban Development for their visionary leadership and unwavering support. My gratitude also goes to the technical working team that worked towards realization of this strategic plan led by Director Sammy Kathike. The team comprised of officers drawn from The Municipality of Kitui and other departments. Special appreciation to Agnes Mulwa, Assistant Director, Housing, Pln. Irene Muema, Veronica Mukaiwa, Julietah Nzoka, Annastacia Mbavati, Daniel Mbathi and Joseph Kilonzi for their commitment to the process. I appreciate the technical assistance offered by Pln. Nichodemus Mbwika (Council of Governors) and Job Muisyo, Municipal Manager, Municipality of Kitui. Acknowledgement

CHAPTER 1: BACKGROUND

1.1 Location and size

The Municipality of Kitui hosts Kitui town which is the headquarters for County Kitui. Kitui town is located 160kms East of Nairobi on Coordinates $1^{\circ} 22' 0''$ S and $38^{\circ} 1' 0''$ E. The town is located 108 East of Machakos town, 143 South-East of Embu Town and 138 Kilometers off Thika town.

Map 1: Kitui Municipality in the national and county context

The municipality traverses 3 sub-counties namely Kitui Central, Kitui West and Kitui East. Kitui Central sub-county is wholly accommodated in the municipality whereas Kitui East and

West are partially covered. The Municipality of Kitui spans 580.81km² and completely covers six wards and partially 2 wards.

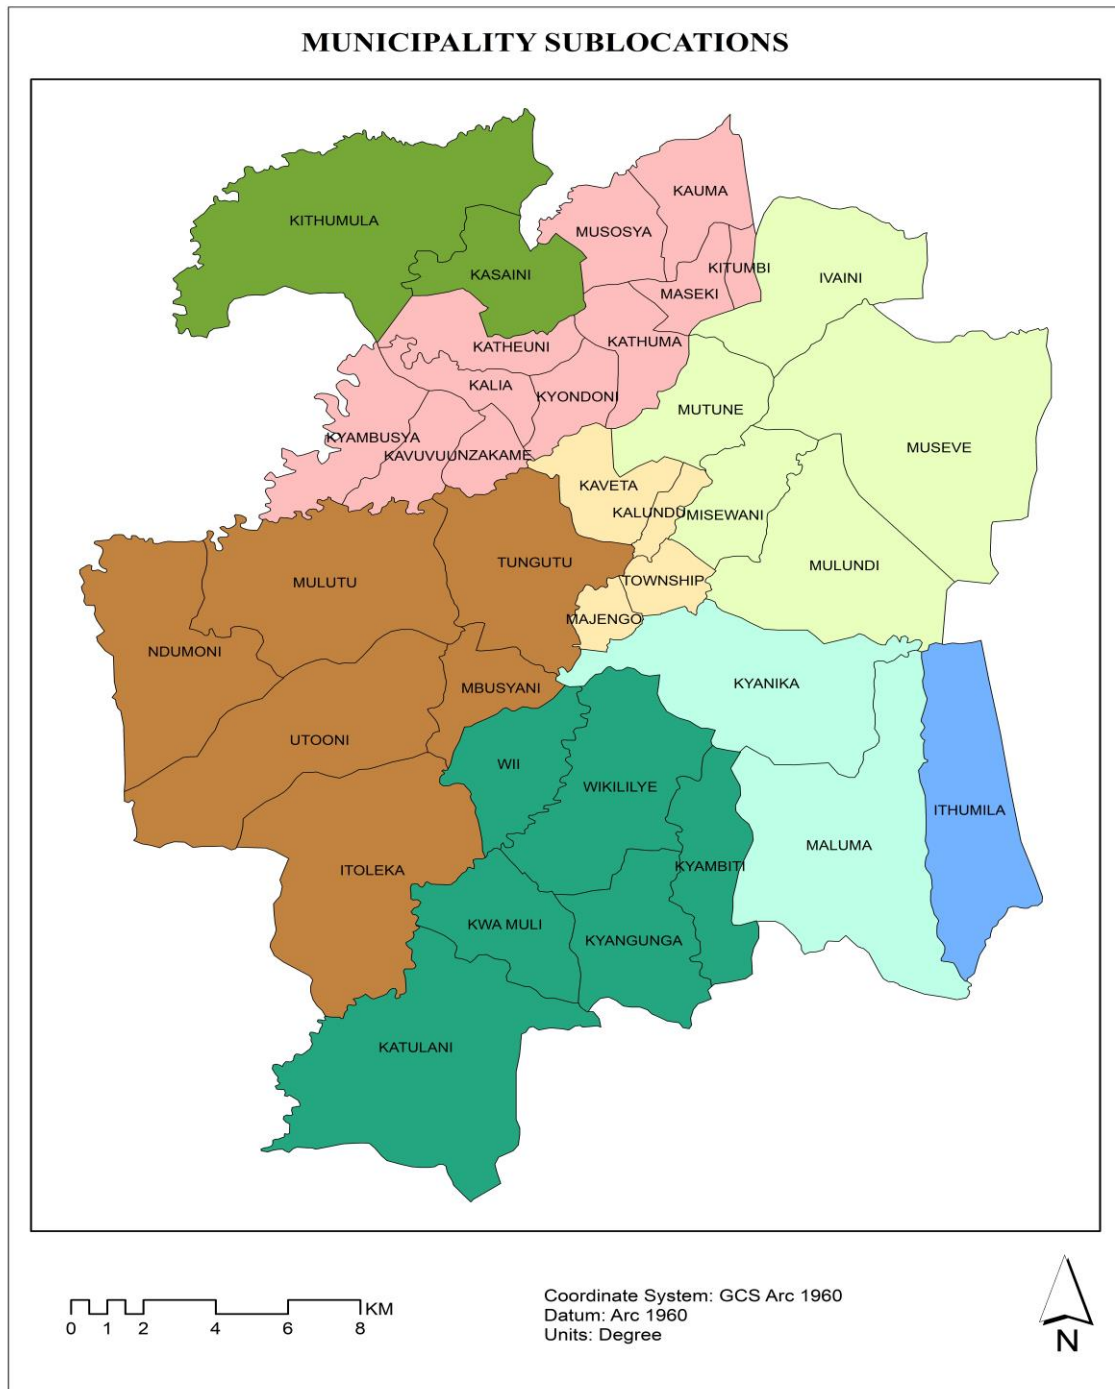

Map 2: Wards within the municipality. Credit: County GIS and Municipality Planning departments

The municipality administratively spans 37 sub-locations in the 3 sub-counties.

Map 3: Sub-locations within the Municipality. Credit: County GIS and Municipality Planning Departments

The Municipality is transected by The Kibwezi-Kitui-Mbondoni road which links international roads (A1 Mombasa road and A2 Thika Road). Its strategic position along the road and good

connectivity to the hither land gives it comparative advantage as a growth pole and metropolis at regional and local level.

The Kibwezi-Kitui-Mbondoni road will offer alternative route from the Port of Mombasa to the Lower, Upper Eastern Regions and Ethiopia hence decongesting the Nairobi – Mombasa Highway and improve the economic competitiveness of Counties served by road. The project will link Isiolo through the Meru – Maua Road. This road forms part of the larger Mombasa – Addis Ababa Transport Corridor that links the Mombasa – Nairobi Highway (A8) at Kibwezi and the Nairobi – Addis Ababa Highway (A2) at Isiolo. It is an alternative shorter route to Moyale and ultimately Addis Ababa in Ethiopia and will facilitate faster movement of goods and services and unlock the economic potential of Makueni and Kitui, Counties. The road will boost transportation of agricultural produce and improve farming in Kitui County and Makueni Counties that is expected to more efficiently serve the surrounding towns.

1.2 History of Kitui Municipality

The town of Kitui is drawn from a rich history that spans back to the pre-colonial era. The name Kitui means “a Place where iron goods are made”. The name was coined from by Kamba iron-smiths who settled in the County. The town of Kitui started with few settlements at the Swahili village currently known as ‘Mjini’, a Swahili name that denotes urbanization. To date, there are fragments of the rich history that can be found within the county headquarters. Most notable is the site that hosted the first school which was built in 1888. The land currently hosts the County survey offices under The Ministry of Lands, Infrastructure, Housing and Urban Development. The second parcel of land that holds a significant piece of history is the current Kitui police station. It was previously occupied by Swahili settlers who had their origin from Mombasa. This area was by then referred to as ‘Makao Ya Waswahili’. Muvuli trees which were planted by these Swahili are still found in this area.

The central business district also boasts of a rich history and proudly sits as the center for pre- and post-colonial administration. For example, in 1925 the Local Native Council (LNC) was formed by colonial District Commissioner through trusted chiefs and headsmen. The current Kithomboani area which is just adjacent to Mjini hosted the LNC offices. The Colonial District Commissioner was the Chairman of the Council and was responsible for administrative functions. The key function of the administration was to ensure the efficient collection of hut and poll taxes. The LNC was composed of African representatives drawn from Ikutha, Mutomo, Kaziku, Nzambani, Mulango, Mui, Kaste, Migwani, Mutunguni and Mivukoni areas.

In 1964 The Kitui County Council which was under the leadership of a chairman was formed. The first Chairman of the county council was known as Mr. Kivoto from Endau.

In 1966 the Kitui Urban Council was formed. The urban council covered Mulango, Kyangwithya, Nzambani and Matinyani.

The Kitui Municipal Council was formed in 1989. The Municipal Council which was under the leadership of a mayor was responsible for all the administrative functions. These Municipal Councils became dysfunctional in 2010 after the promulgation of the new Constitution and repealing of the Local Governments Act. The new constitution replaced Local Government then led by mayors with County Governments now headed by Governors.

The first County Government of Kitui was formed in 2012 and was headed by His Excellency Dr. Julius Malombe and Kitui town became the county's administrative headquarter. In order to enhance the effective delivery of service to the residents of Kitui, the running of the affairs of Kitui town was placed under The Kitui Town Administration which was headed by the first Town administrator, Mr. Nathan Vungo. The Kitui Town administration had five functional departments each headed by Deputy town administrators.

In 2018, Kitui town was granted Municipality status through a Charter granted by the County Governor with approval by the County Assembly. The Kitui Municipal Board was also formed and a Municipal Manager appointed. This was in compliance with the urban areas and cities act that guided the hierarchy of urbanization. The Board of Municipality has the powers to perform all the functions vested in boards of municipalities under the Urban Areas and Cities Act, and The County Government Act.

The defunct municipal Council's boundaries spanning 580km² were adopted as the Kitui Municipality boundaries.

1.3 Topography and Relief Features

The Municipality of Kitui is characterized by undulating altitude with most areas lying between 600-1200 meters above sea level. The municipality borders The Yatta Plateau which stretches between The Rivers Athi and Tana.

The highest point of the Municipality are The Museve Hills, Kasyala Areas with the lowest being Kithumula/Kwa mutonga areas

1.4 Climate

The Municipality of Kitui has a bi-modal rainfall pattern with long rains falling between March-May and short rains falling between October-December. Both rain seasons are erratic and largely unreliable. The annual rainfall ranges between 300-1000 ml.

The Municipality experience averagely high temperatures ranging between 14-35 degrees Celsius with the months of August and February being the hottest months. With July being the coldest with recorded temperatures as low as 14 degrees C. Mean annual temperatures ranges between 26-34 degree Celsius(high) and 14-22 degrees Celsius (low).

Sunshine The Municipality receives 12 hours of sun. The length of day and night in the Municipality does not vary substantially through the year.

Wind direction mostly blows from the South to the North with August receiving the highest velocity of 12.7km per hour. December is the calmest month receiving an average of 6.9 kilometers per hour.

1.5 Geology

The Municipality of Kitui has soil formation of various types occurring in wide zones, mostly running north south and determined by the parent material and local climate. The soil types include sandy soils, red sandy soil, and patches of black cotton soil. The red sandy soil through low in fertility is rich in sodium. The black cotton soils are poorly drained, and mostly found along river valleys. They have moderate to high fertility but are prone to soil erosion.

1.6 Vegetation

The largest land use in the municipality is agriculture where a majority of the residents derive their livelihoods. The main crops produced are maize, beans, cow peas, green grams and millet. Farm forestry is also practiced for wood and fruit products with the most common tree fruit type being Mango papaya, guava and tamarind. Other benefits from agroforestry include shade, fodder, live fence and fuel wood.

Bio diversity in the municipality is wide with recorded plant diversity which is close to 15% of dry land flora in Kenya (Mutiso 2019) The hilly areas largely contribute to this diversity with domineering families Leguminosae (Mimosaceae, Papilionaceae, Caesalpiniceae) Euphorbiae., Acanthaceae, Gramineae, Rubiaceae, Composite, Malvaceae and Labiatae. Common genera include Acacia, Ficus, Euphorbia, Hibiscus, Crotalaria and Comretum species.

Urban farming and tree planting is practised within the municipality and majorly in Kitui town. Multipurpose tree and shrub species are common with benefits ranging from fruit, shade, urban landscaping for aesthetic values including integration of assorted flower species.

Ingenious vegetative cover including trees exist largely in the municipality. Whereas most of the indigenous trees have been cleared in the urban settlements, mostly for construction, the hinterland still has a huge tree covering. The most common species of indigenous vegetation is Acacia Nilotica, Acacia Eliator, Ficus sycamores, Grewia biclour, Vangueria Infausta, Acacia Xanthophloea, Caesalpinia Volkenski, and Ficus Sur.

1.7 Land use

1.7.1 Land Ownership Categories

The Municipality of Kitui lands ownership has two categories of land ownership as guided by article 61(2) of The Constitution of Kenya (2010); private and public owned land. Private land includes all land held by people under leasehold and freehold tenure. This constitutes of the biggest land holding in the municipality, however as a matter of concern, security of tenure for land in urban areas is a concern since most of the plots have not been dully registered with letters of allotment as ownership documents. The lease certificates of these parcels of lands are unprocessed.

Public land include land occupied by public institutions, schools, hospitals, tertiary institutions, public utilities, forests and all other lands alienated for public purpose. The Municipality of Kitui does not have any community land or group ranches.

1.8 Human Settlement Patterns

Settlement patterns in the municipality has been influenced by agricultural potential and proximity to urban areas. However recent trends especially around Kitui town has been influenced by; availability of services, employment/economic opportunities. Kibwezi-Kitui highway has influenced new linear settlement patterns especially at Mulango and Kitui central wards. Kitui central wards is densely settled with Nzambani being the least settled.

1.9 Demography

The Municipality of Kitui currently has a population of 147,589. The gender distribution has the male population lower than the female population. The male population is currently recorded at 49% against the female population that is 51%.

The Municipality of Kitui contains a mix of urban, peri-urban and rural population. The municipality is growing at a much faster rate than the rest of the county (3.5% per annum against 1.2% per annum for Kitui County). The rate is even higher than the national growth rate of 2.4% per annum.

1.10 Socio-economic activities

Economic activities within the municipality are mostly hinged on sectors including agriculture, commerce, industry, trade, service provision and, transport.

Agriculture

Kitui municipality largely has agriculture as its main stay economic activity due to its vast rural hither land and peri-urban characteristics. Over 75% of the municipality population depends on agriculture as the main means of livelihood with low mechanization and little value addition.

Crop production accounts for the highest income derived from agriculture with the main crops being maize, beans, sorghum, pigeon peas, millet, and cassava which are rain-fed and grown for subsistence. Other commercial crops are planted in the medium potential areas include Bananas, Mangoes, citric fruits, sweet potatoes and a variety of vegetables. The municipality holds three main (3) food markets. Kalundu, Kithomboani and Kiembeni markets

Livestock rearing is also practiced in the municipality with the main animals kept including cows, sheep and goats. Poultry farming and beekeeping is also practiced. There is also a vibrant livestock market. All market centers within The Municipality also have markets that are held on pre-determined markets days.

Trade, Commerce, Industry and Service industry

Kitui town is both the county headquarters and the core of the municipality is the main hub of business in the county and a lifeline for all satellite urban centers. Trade activities are undertaken at retail and wholesale levels. The trade activities include restaurant and hotels, construction, finance, insurance, real estate and business services, Transport and communication and manufacturing. There are three main markets are located within the municipality.

The main service industry products include; ICT, Financial services, legal services, insurance, land surveying. Kitui town host all the main branches of most banks, micro-credit and insurance companies.

The transport industry is very vibrant with commercial transit companies ferrying commuters from Kitui to Mombasa, Nairobi, Meru, Mwingi-Garissa and Embu.

Whereas the municipality has great tourism potential, the only exploited tourist attraction site is The Nzambani Rock. It is locally known as "Ivia ya Nzambani", situated about 1 km from Chuluni Market. The rock which is famous for the tales and myths of its origin. Activities here include hiking and rock climbing.

Figure 1: Nzambani Rock

Kitui Ginnery

Situated within the Municipality is a cotton ginnery where cotton farmers from around the county can deliver their harvest. It is the only major industry in the region, and was set up way back in 1935. Kitui is a semi-arid region and not many crops fare well there apart from cotton, hence the ginnery plays a major role creating income for the many cotton farmers in the region.

Figure 2: Integrated Community Empowerment

Municipality has undertaken a number of infrastructure projects and programmes which aims at creating job opportunities and enhancing 24-hour economy through installation of streetlights .Urban greening and beautification is aimed at reducing adverse effects of climate change.

Employment within the Municipality

The Municipality of Kitui is the center for Kitui county economy with a high share of working age population of 43% (Kitui ISUDP 2014). The Municipality of Kitui’s economy is categorized into formal (wage) and informal (jua kali). The County government of Kitui is the biggest employer with a labor force of permanent and casual staff. This is primary because Kitui town is the administrative headquarter. The Informal economy forms the larger percentage compared to formal economy.

The Wage employment in Kitui Municipality is distributed in community, social, and Personal services, whole sale and retail trade, restaurant and hotels, construction, finance, insurance, real estate and business services, Transport and communication and manufacturing. (UN-Habitat 2006) The Informal economy workers in Kitui municipality include; auto repairs, Painters, Carpenters, Shoemakers, Crafts people, hairdressers, drivers, domestic servants, petty traders, urban farmers and hawkers of various commodities.

In the formal Sector, Women are mostly concentrated in low-Paying occupation because of their historically disadvantaged access to education, Land and other productive assets. In the informal Sector the female gender is highly represented with women selling items like vegetables, fruits, and clothes while men tend to deal in higher profit margin products like electronics, shoes, hardware, toys and other assorted goods.

Religion within the Municipality

Majority of the people living within the Municipality are Christians. Roman Catholics make about 15% of the county’s population. Other Christian denominations in the county include the

African Inland Church (AIC), Redeemed Gospel Church, Independent Presbyterian Church (IPC) and many others.

Kitui has a significant number of Muslims and several mosques are active around the Central business district and residential areas.

Health Facilities

Kitui Municipality has several hospitals and health centers to meet the health needs of residents, among them Kitui County Referral Hospital, Kitui Nursing Home, Neema Hospital, Jordan Hospital, mission-run hospitals such as Muthale Mission hospital and some private health centers.

CHAPTER 2: LEGAL AND POLICY FRAMEWORK AND IDEP LINKAGES

Policy and Legal Framework for Integrated Development Planning in Municipalities

This chapter gives a breakdown of some of the relevant policies, legislation and institutions geared towards sustainable urban development, both nationally and globally. This begins with looking at the international and regional conventions before scaling down to the national and local structures. For many years urban development has been shaped by legal norms based on the Kenyan law. They define, on the one hand, the institutions responsible for governing and managing cities and urban areas and on the other, preparation and approvals of plans.

2.1 Relevant International and Regional Conventions

2.1.1 Sustainable Development Goals (SDG's)

Prior to the lapse of the Millennium Development Goals (MDGs), negotiations on the Post-2015 Development Agenda began in January 2015 and ended in August 2015. A final document was adopted at the UN Sustainable Development Summit in September 2015 in New York, USA. The 17 new goals that were adapted were referred to as the “Sustainable Development Goals (SDGs)”.

These SDGs include to end poverty in all its forms everywhere; to end hunger, achieve food security and improved nutrition and promote sustainable agriculture; to ensure healthy lives and promote well-being for all at all ages; to ensure inclusive and equitable quality education and promote lifelong learning opportunities for all; to achieve gender equality and empower all women and girls; to ensure availability and sustainable management of water and sanitation for all; to ensure access to affordable, reliable, sustainable and modern energy for all; to promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all; to build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation; to reduce inequality within and among countries; to make cities and human settlements inclusive, safe, resilient and sustainable; to ensure sustainable consumption and production patterns; to take urgent action to combat climate change and its impacts; to conserve and sustainably use the oceans, seas and marine resources for sustainable development; to protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss; to promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels and to strengthen the means of implementation and revitalize the global partnership for sustainable development.

Although this plan is anchored on SDG 11 the proposed interventions cut across several SDGs as summarized below:

2.1.2 The New Urban Agenda

The new Urban Agenda (NUA) is an urbanization action blueprint for UN-Habitat and partners in support of the 2030 Agenda on Sustainable Development; especially SDG 11 - making cities inclusive, safe, resilient and sustainable.

The blue print is anchored on five major pillars including National Urban Policies, Urban Legislation and regulations, Urban Planning and Design, Local Economy and Municipal Finance and Local Implementation.

At the core of the Kitui Municipality Integrated Development Plan is the implementation of the New Urban Agenda through implementation of projects aligned to the NUA pillars of National Urban Policies, Urban Legislation and regulations, Urban Planning and Design, Local Economy and Municipal Finance Local Implementation

2.2 Relevant National Policies

2.2.1 National Urban Development Policy

The National Urban Development Policy (NUDP) is the blue print for urban development in Kenya. The overall objective of NUDP is to provide a framework for sustainable urban development in Kenya for the benefit of all. The NUDP defines urban governance as “the ways in which individuals and institutions, public and private, plan and manage the common affairs of urban areas”.

NUDP seeks to create a framework for sustainable urbanization by presenting three sets of policy interventions on urban management; urban core issues; and additional areas of advice. Urban Management entails urban governance, finance and economy. Urban Core entails urban planning, land, infrastructure and climate change, infrastructure, housing and disaster and risk management. Urban Advisory deals with social issues, marginalized groups, cross-cutting principles and introduces an implementation matrix.

The policy interventions proposed in the National Urban Development Policy are properly enshrined in this integrated development plan for Kitui Municipality.

2.2.2 National Land Policy

The Land Policy recognizes the importance of: optimal utilization of Land (Compact development), recognition and provision for informal sector activities, promotion of mixed-use development and provision for coordinated framework for enforcing planning decisions.

This municipal integrated development plan provides the basis for the spatial development framework for Kitui Municipality and as such takes due cognizance of the above principles highlighted in the land policy.

2.3 Legal Basis for the Development of Kitui Municipality Integrated Development Plan

2.3.1 Constitution of Kenya 2010

The Constitution of Kenya is the supreme law of the country and provides the basis for planning. Further the Constitution of Kenya 2010 (Article 184) provides the overall principles of classification and management of urban areas, including citizens’ participation. It provides for enactment of national legislation to give effect to the same which was established through the urban areas and cities act of 2011 amended in 2019.

2.3.2 Urban Areas and Cities (Amendment) Act 2019

The *Urban Areas and Cities Act* (UACA, 2011 as amended in 2019) that gives effect to Article 184 of the Constitution. The Act states that the management of cities and municipalities is vested in the County Government, but shall be administered, on its behalf, by a Board appointed by the Governor. The Board oversees the operations by an Urban Manager and staff as determined by the County Public Service Board.

Section 36 of the Act obligates every city and municipality to operate within the framework of integrated development planning which shall: give effect to the development of urban areas and cities, strive to achieve the objects of devolved government as set out in article 174 of the Constitution, contribute to the protection and promotion of the fundamental rights and freedoms contained in Chapter Four of the Constitution and the progressive realization of the socio-economic rights;

Further this integrated development framework provides the basis for the preparation of environmental management plans, the preparation of valuation rolls for property taxation, provision of physical and social infrastructure and transportation, preparation of annual strategic plans for a city or municipality, disaster preparedness and response, overall delivery of service including provision of water, electricity, health, telecommunications and solid waste management and the preparation of a geographic information system for a city or municipality. Additionally, the integrated development framework shall nurture and promote development of informal commercial activities in an orderly and sustainable manner, provide a framework for regulated urban agriculture and be the basis for development control.

2.3.3 County Government Act 2012

This act of parliament to gives effect to chapter 11 of the Constitution of Kenya 2010. Section 5 (1) of the Act states that a county government shall be responsible for any function assigned to it under the constitution or by an Act of Parliament.

Section 37 gives power to the county executive committee to : monitor the process of planning, formulation and adoption of the integrated development plan by a city or municipality within the county, assist a city or municipality with the planning, formulation, adoption and review of its integrated development plan, facilitate the coordination and alignment of integrated development plans of different cities or municipalities within the county and within the plans, strategies and programmes of national and county governments and take appropriate steps to resolve any disputes or difference in connection with the planning, formulation, adoption or review of an integrated development plan.

More fundamentally the Act obligates County Government to designate County Departments, Cities, Municipalities, and Towns etc. as planning authorities of the county.

2.3.4 Physical and Land Use Planning Act 2019

The Physical and Land Use Planning Act (PLUPA) No.13 of 2019 became effective on the 5th August, 2019. The Act makes provision for the planning, use, regulation and development of land and for connected purposes. Specifically, the Act establishes physical and land use planning institutions, categorizes types of physical and land use development plans, development control, enforcement, physical and land use planning liaison committees.

The development of this integrated development plan took in to consideration the provisions of this act bearing in mind that some of the proposed interventions include development of physical and land use plans for the municipality, development of municipal by laws to aid in development control as well as enforcement of the physical and use plans as well as resolution of planning and land use disputes using the established structures in this Act.

2.3.4 Environmental Management and Coordination Act of 1999, amended 2015

This Act of Parliament provides for the establishment of an appropriate legal and institutional frameworks for the management of the environment. It aims at promoting a safe, clean and healthy environment. Section 58 of the Act requires that every development project likely to have impacts on the environment to undergo an environmental impact assessment before commencement of any works. All development projects proposed under this integrated development plan will undergo screening and a further environmental impact assessment if they screening reveals the need for the environmental impact assessment.

Further the plan itself will undergo and environmental impact assessment since it falls under the projects required to undergo environmental impacts assessment as per the Act.

2.3.5 Environmental and Social Impact Assessment and Management

1. Introduction

Kitui Municipality's vision for sustainable development is rooted in a balanced approach that integrates environmental conservation with social well-being. This chapter outlines the framework for conducting Environmental and Social Impact Assessments (ESIAs) and implementing management strategies to mitigate potential adverse effects of municipal development projects. The goal is to ensure that development initiatives are sustainable, inclusive, and compliant with national and county-level regulations.

Recognizing the challenges posed by climate change, this framework integrates principles from the Global Centre for Adaptation (GCA), emphasizing climate resilience and innovative adaptation financing. These measures are crucial for Kitui, a semi-arid region prone to droughts, water scarcity, and land degradation.

2. Regulatory and Policy Framework

This section highlights the legal and institutional framework governing environmental and social management in Kitui Municipality:

Kenyan Environmental Laws and Policies:

- Environmental Management and Coordination Act (EMCA) 1999, amended 2015. The principal law for environmental management in Kenya.
- Physical and Land Use Planning Act, 2019: Guides spatial development planning.
- Environmental Impact Assessment (EIA) Regulations, 2003: Sets out the EIA process.
- Climate Change Act, 2016: Guides climate-resilient development.

International Guidelines (where applicable):

- World Bank Environmental and Social Framework (ESF).
- United Nations Sustainable Development Goals (SDGs).
- Global Centre for Adaptation (GCA) Guidelines: Promote climate resilience through locally-led adaptation and innovative financing mechanisms.

3. Environmental and Social Challenges in Kitui Municipality

This section identifies key environmental and social concerns that influence development planning in Kitui:

Environmental Issues:

- Land degradation due to sand harvesting.
- Water scarcity
- Pollution in rivers and boreholes as a result of unsustainable solid waste management and un-operational sewer system
- Deforestation and loss of biodiversity.
- Increased vulnerability to climate change (e.g., droughts, flooding).

Social Challenges:

- Inequality in access to basic services (e.g., healthcare, education, water).
- Urban poverty and unemployment.
- Land tenure conflicts.
- Vulnerability of marginalized groups, including women, children, and people with disabilities.

Climate Change Considerations:

The GCA emphasizes addressing these challenges through strategies like community-driven adaptation and innovative financial solutions to enhance resilience

4. Environmental and Social Impact Assessment (ESIA) Framework

The ESIA process in Kitui Municipality will ensure that all development projects undergo rigorous analysis to assess their potential impacts. The framework involves:

4.1 Screening and Scoping

- Identify projects requiring ESIA's based on their scale, location, and potential impacts.
- Define the scope of assessment, focusing on critical environmental and social factors.

4.2 Baseline Data Collection

- Conduct studies to understand the existing environmental and social conditions, including land use, natural resources, and socio-economic dynamics.

4.3 Impact Prediction and Analysis

- Use qualitative and quantitative methods to assess potential impacts on:
 - Natural ecosystems.
 - Community health, safety, and livelihoods.
 - Cultural and heritage sites.

4.4 Mitigation Measures

- Propose strategies to avoid, reduce, or offset negative impacts.
- Develop Environmental and Social Management Plans (ESMPs) for implementation.

4.5 Stakeholder Engagement

- Ensure meaningful participation of communities, civil society, and government agencies throughout the ESIA process.

4.6 Approval and Monitoring

- Submit ESIAAs to the National Environment Management Authority (NEMA) for approval.
- Monitor project compliance with ESMPs during and after implementation.

5. Environmental and Social Management Strategies

To promote sustainable development, the following strategies will be adopted:

5.1 Environmental Management

- Promote reforestation and afforestation programs.
- Implement integrated water resource management plans.
- Encourage green building practices and energy efficiency.
- Enforce zoning regulations to protect sensitive ecosystems.
- Strengthen resilience through community-based drought mitigation programs

5.2 Social Development

- Improve access to essential services, prioritizing marginalized groups.
- Support livelihood programs, particularly for women and youth.
- Strengthen disaster risk management systems.
- Address land tenure issues through participatory processes.

6. Monitoring, Evaluation, and Reporting

Kitui Municipality will establish a monitoring framework to track the implementation and effectiveness of ESMPs, with an emphasis on climate adaptation through;

- Conducting regular environmental and social audits to assess project compliance.
- Use of feedback mechanisms to incorporate community input.
- Reporting progress on adaptation goals, aligned with GCA's best practices.

7. Budgetary Considerations

Allocate resources for;

- Capacity building on ESIA and environmental management.
- Community outreach and stakeholder engagement.
- Implementation of mitigation measures and monitoring programs.

8. Conclusion

Integrating environmental and social impact assessment and management into Kitui Municipality's IDeP ensures that development is sustainable, inclusive, and resilient. By adopting GCA principles, Kitui Municipality will address its unique challenges while enhancing climate resilience and promoting long-term sustainable growth.

2.4 Linkage of Kitui Municipality Integrated Development Plan and Other National Plans

2.4.1 Vision 2030 and the Medium-Term Plans

Sessional Paper Number 10 of 2012 on Kenya Vision 2030 is the National Economic Blueprint Policy that entrenches Kenya's Vision 2030 as the long-term development strategy for Kenya. The Kenya Vision 2030 aims to transform Kenya into a modern, globally competitive, middle-income country providing a high quality of life to all its citizens. Kenya Vision 2030 is a product of highly participatory, consultative and inclusive stakeholders process conducted throughout the country and in all sectors of the economy.

The Vision is anchored on three key pillars: Economic; Social; and Political. The Economic Pillar aims to achieve an average Gross Domestic Product (GDP) growth rate of 10 percent per annum and sustain the same till 2030 in order to generate more resources to reinvigorate the economy to meet its envisaged goals and aspirations. The key sectors in this pillar include: tourism, agriculture and livestock, manufacturing, wholesale and retail trade, Business Process Outsourcing (BPO) and financial services. A seventh sector, oil and mineral resources as added taking cognizance of the recent developments in the sector.

The Social Pillar seeks to build a just and cohesive society with social equity in a clean and secure environment. The main sectors under this pillar include education and training, health, water and irrigation, environment, housing and urbanization, gender, sports, youth and culture. The Political Pillar aims at realizing a democratic political system founded on issue-based politics that respect the rule of law, and protects the fundamental rights and freedoms of every individual in the society.

The three pillars are anchored on a number of foundations, which serve as enablers that create an environment that is geared towards the realization of Vision 2030. These include: macroeconomic stability; continuity in governance reforms; enhanced equity and wealth creation opportunities for the poor; infrastructure; energy; Science, Technology and Innovation; Land Reforms; Human Resource Development; Security and Public Sector Reforms. An additional enabler, National Values and Ethics, has been included following the passing of the Constitution of Kenya 2010.

The Kenya Vision 2030 is phased to be implemented in successive five-year Medium-Term Plans. The first plan covered the period 2008-2012, the second one covered 2013-2017 and the third one 2018-2022. The Country is currently implementing the fourth Medium Plan 2023 - 2027) which builds upon the gains made and lessons learnt in implementing the 1st, 2nd and 3rd Medium Term Plans. This 4th Medium Term Plan has placed a lot of emphasis on the, Bottom-Up Economic Transformation Agenda 2022-2027 core pillars including; Agriculture, Micro, Small and Medium Enterprise (MSME) economy, Housing and Settlement, Healthcare, Digital Superhighway and Creative Economy. The preparation of this integrated development plan was aligned to these national priorities.

2.4.2 National Spatial Plan

The National Spatial Plan (NSP) is a territorial plan that covers the whole country and translates and grounds Kenya Vision 2030. Cities and Urban areas should be aligned to the policies outlined in the National Spatial Plan.

The purpose of the plan is to strengthen national economic planning by providing spatial dimension of national economic policies, coordinate sectoral agencies by providing the spatial expression to sector policies to mitigate duplication and wastage of resources, formulation of physical/spatial planning policies to support socio-economic and sectorial planning and guide the preparation of regional, County and local (Cities and Urban areas) physical/spatial development plans.

2.5 Linkage of Kitui Municipality Integrated Development Plan and Other County Plans

2.5.1 Kitui County Integrated Development Plan

The Kitui County Integrated Development Plan (CIDP) 2023-2027 seeks to accelerate Kitui Economic and social Transformation Agenda. The plan provides a platform to facilitate an integrated and coordinated approach to addressing the key development needs of the people of Kitui, namely, Agriculture, Water, Health, Education, Urban Development, Roads and construction, Trade and Investments, Micro small and Medium Enterprises, Cooperative societies, Tourism and Hospitality, Women, Youth and persons with Disability, Bodaboda, Environment, Energy, Information and Communication and Security.

The plan has identified flagship programs and projects geared towards achievement of the 16 priority sectors according to the governor's manifesto as outlined below.

1. Agriculture: Intensive extension of agricultural services; water pans machinery and support to farmers; two well maintained and managed farm tractors for each ward and regular training of farmers on modern farming and agribusiness and establishment of viable livestock trade centers in each ward.

2. Water: 60 sand dams in every ward (2,400 for the entire county); - 1 mega dam in each sub county; 2 large dams in each ward; 1 medium dam in each village and Boreholes in strategic points in each ward/Village.

3. Health: Teaching and referral hospital in Kitui and Mwingi, Level (iv) hospital in each sub county, Level (iii) hospital in each ward, Level (ii) hospital in each village, Modern maternity in each level (ii) and (iii) hospitals and an ambulance in each ward

4. Education: Construction of modern ECDE classrooms in every public primary school, collaboration with national government to improve primary and secondary schools' infrastructure; install WI-FI in every youth polytechnic.

5. Urban Development: Re-installation and maintenance of street lights in urban centers; installation of solar security lights in each wards headquarter, small and upcoming trading centers, Establishment of refuse collection and re-cycling centers and improving water and sanitation services in each sub-county headquarter and municipalities (solid waste management, water connectivity.)

6. Roads and Construction: tarmacking and or slabbing of Kitui town- Museve- Miambani – Ndithini- Kiviu-Kamandio- Ikoo -Mwanzilu-Nzeluni- Mumbuni- Kalisasito Mwingi town road; tarmacking of main streets in ward headquarters and key towns; Slabbing, culverting of

other prioritized county roads (Ndithini- Malili- Mikuyuni and branching to Mutito-Mui-Nuu), Grading and improvement of security enhancing roads , Mutha to Kona kaliti, Ukasi-Sosoma –Engamba, Kandolongwe, Kwa Kamuru (Ngalange)- Kaningo –Kora and George Adamson bridge, Kwa-Vonza- Mwakini-Kanyonyoo B2 ranch etc), grading and putting murram 50 kms per year of county roads in each ward and acquisition and maintenance of road construction machineries for each sub county (dozers, graders, excavators, shovels, rollers, backhoes)

7.Trade and Investments: operationalization and marketing of the county’s six Economic and Investment Zones (EIZs), organize One Investor Conference within the first 18 months, reinstate and organize an agricultural and trade fair every year, ensuring safe and environmentally friendly operations at the crusher, establishing annual livestock auction markets in each sub county and construction of a storage facility in each modern market

8.Micro Small and Medium Enterprises: installation and maintenance of infrastructure to facilitate 24 hour economic activities (e.g. access roads, water and sanitation facilities, street lighting, enhance security, merchandise storage facilities, well-lit merchandise loading and offloading bays, convenient bodaboda, taxi and vehicle parking facilities, etc.); facilitation and support in the acquisition of modern working equipment (e.g. fabricated kiosks, computerized wheel alignment, hair dressing machines, shavers, carpentry and masonry tools, concrete mixers) and capacity building on entrepreneurial and business skills (innovation, production, marketing, packaging, branding, distribution, human resource and financial management, Information Communication Technologies, customer relations etc.)

9.Cooperative Societies: facilitate registration of cooperatives per sector (honey producers, tailoring and garment making, hide and skins, charcoal producers etc.); training and strengthening of cooperative societies through enforcing self-regulations in the internal operations, administrative guidelines and application of information technology (internal audits and automation of the operations) and support for and revival of dormant cooperatives through partnerships and capacity building in management, access to finance, production and marketing (honey processing, fruit processing etc.)

10. Tourism and Hospitality: Refinement and marketing of a robust and sustainable tourism circuit connecting Kitui county with coastal region and Mount Kenya region; protection, conservation and erection of entry gates for the South Kitui Game Reserve, Mwingi North game Reserve and the Mutomo Reptile Park and Provide incentives for private sector investors/businesses in the entire hotel and hospitality value chain (through moderate taxation, licensing fees, land rates)

11.Women, Youth and Persons with Disabilities: Scouting and nurturing of local talents in various fields (athletics, football, acting, music, modeling, drawing and painting among others); support and facilitate at least one self-help group in each sub-county in the formation of cooperatives in key economic sectors including: Boda boda , taxi/probox, tailoring, livestock trading, weaving, fruit farmers, poultry farmers, food vendors, hire of events tents, chairs, tables, public address system, bee keepers and honey processors, vegetable vendors, salon’s, hawkers, car wash, shoe shiners, mechanics, hotels and restaurants, bar owners, social welfare association, Support of Persons Living with Disabilities (PWDs) to register with the National Council for Persons with Disabilities (NCPWD) and with the National Treasury to enable their 5% Access to Government Procurement Opportunities (AGPO) and Reservation of 30% of the County’s budgeted annual procurement opportunities for AGPO women, youth and PWDs,

Consideration of youth – both men and women - for county senior level and other employment opportunities and participation of all youth, women and people living with disabilities in public participation forums.

12. Boda Boda : Establishment of division within the ministry responsible for transport headed and staffed by officers who appreciate the sector and are passionate in the promotion, empowerment and development of the persons operating within the sector, Facilitate formation of self-help groups and Sacco's to raise the welfare of boda boda operators, assisting boda boda operator's access subsidized loan facilities to help them acquire motor bikes on manageable repayment terms, Arranging training sessions as well as road safety sensitization programs, and assisting them in acquisition of motor bike licenses, facilitate acquisition of reflector jackets and safety head helmets for both the operator and the passenger, construct more spacious boda boda sheds with cabro floor in every market center, and Grading of all roads and construction of drifts, and installation of culverts to improve movement.

13. Environment: Tree planting in county schools, river banks and county forests; supporting planting at least 5 trees in each homestead; training and sensitization on environmental conservation in collaboration with other stakeholders; implement sustainable charcoal management policy; sustainable sand harvesting management policy and formulate and implement a sustainable mineral management policy.

14. Energy: Enhance household electricity connection in collaboration with REREC, Provision of solar power to off-grid social facilities (schools, hospitals and youth polytechnics), Community solar access in partnership with private sector and NGOs, Support community access to green energy (Biogas, Solar, Wind) in partnership with National government, private sector, NGOs, CBOs and Faith Based Organizations.

15. Information and Communications: Installation of mobile telephony masts in underserved areas of county in collaboration with mobile service providers; Installation of boosters and modern technologies for improved network coverage and Facilitate access to fiber optic infrastructure and use of digital technology in government offices and private sector entities within Kitui, Mwingi, Kwa-Vonza and other key county urban centers.

16. Security: Over the next five years, the county will install security and street lighting in the county's towns, market centers and public facilities including hospitals, village polytechnics, administration offices, day care centers, collaborate with the national government in security enhancement within the location/villages, divisions/ wards, sub-counties and in border areas susceptible along the county borders, operationalize the County Policing Authority in partnership with the National Government and Install CCTV monitors in the county's two municipalities of Kitui and Mwingi in partnership with private sector/business.

The above 16 priority sectors have been grouped into 6 pillars and 5 enablers as follows:

Pillar I: Food Security: The Sectors under this Pillar include: Agriculture & Environment.

Pillar II: Water Access: This Pillar Anchors Water and Irrigation Sector.

Pillar III: Healthcare: The Sector under this Pillar is Health and Sanitation

Pillar IV: Aggregation & Industrial Parks: This Pillar Anchors Micro Small and Medium Enterprises, Trade and Investments & Cooperative Societies; Women, Youth and Persons with Disabilities

Pillar V: Appropriately nurtured & skilled human capital: This Pillar Anchors Education, Training and Skills Development

Pillar VI: Planned Urban Development: The Sector grouped under this Pillar includes Information and Communication Technology.

2.5.2 Kitui Vision for economic and social development (KIVEST)

The Kitui Vision for economic and social transformation is the county's long-term development blue print prepared in 2015 and aimed at guiding its economic and social development for 10 years up to 2025.

The envisaged county long term development blue print covers the economic and investment zones endorsed by stakeholders in 2013. The economic and investment zones include: Kyuso-Mumoni-Tseikuru economic and investment zone, Mui Basin economic and investment zone, Mwingi Town and its environs economic and investment zone, **Kitui County headquarters and its environs economic and investment zone, Kanyangi-Kwa Vonza-Kanyonyoo economic and investment zone**, Mutomo -Ikutha -Kanziko economic and investment zone.

The Vision is based on three interlinked pillars: the economic pillar, the social pillar and the governance pillar. The **economic pillar** aims at transforming the county into “a dynamic economic region where a high quantum of gross domestic product (GDP) is generated to enhance wealth and employment creation for its people and the country a large”, the **social pillar** seeks to build Kitui county “ as a place where people enjoy a high quality of life in a clean, safe and clean environment in both rural and urban areas” , the **governance pillar** aims to transform the political governance of the county into “a county government that is people centered, issue based and result oriented and accountable to its citizens”.

During the development of this integrated plan, key flagship projects identified within the Kitui Vision for economic and social transformation and especially within the **Kitui County headquarters and its environs economic and investment zone**, and **Kanyangi-Kwa Vonza-Kanyonyoo economic and investment zone** whose part of it fall within Kitui Municipality boundaries were considered and prioritized.

CHAPTER 3: INSTITUTIONAL FRAMEWORK

Introduction

The functions of the Municipality are derived from the County Governments Act 2012 and Urban Areas and Cities Act 2011 as amended in 2019 which are a realization of Article 84 of the Constitution, 2010. The institutional framework defines a relationship between the County Government s and the municipalities in the implementation of Municipal functions. This section highlights the implementation framework that will be adopted in implementing the Kitui Municipal Integrated Development Plan (IDEP).

3.1 Functions of the Municipality

The functions of the Municipality are as derived from Section 20 of the Urban Areas and Cities Act 2011 as amended in 2019 and Section 2.3.1. Of the Kitui Municipal Charter. Based on those two legal instruments the municipality is obligated to undertake the following functions:

- a) Promotion, regulation and provision of an integrated wastes management system;

- b) Promotion and provision of water and sanitation services and infrastructure (in areas within the Municipality not served by the Water and Sanitation Provider);
- c) Construction and maintenance of urban roads and associated infrastructure;
- d) Construction and maintenance of storm drainage and flood controls;
- e) Construction and maintenance of walkways and other non-motorized transport infrastructure;
- f) Construction and maintenance of recreational parks and green spaces;
- g) Construction and maintenance of street lighting;
- h) Construction, maintenance and regulation of traffic controls and parking facilities;
- i) Construction and maintenance of bus and taxi stands, and boda-boda sheds;
- j) Regulation of outdoor advertising;
- k) Construction, maintenance and regulation of municipal markets and abattoirs;
- l) Construction and maintenance of fire stations; provision of fire-fighting services, emergency preparedness and disaster management;
- m) Promotion, regulation and provision of municipal sports and cultural activities;
- n) Promotion, regulation and provision of animal control and welfare;
- o) Development and enforcement of municipal plans and development control;
- p) Municipal administration services (including construction and maintenance of administrative offices);
- q) Promoting and undertaking infrastructural development and services within municipality;
- r) Any other functions as may be delegated by the County Executive Committee.

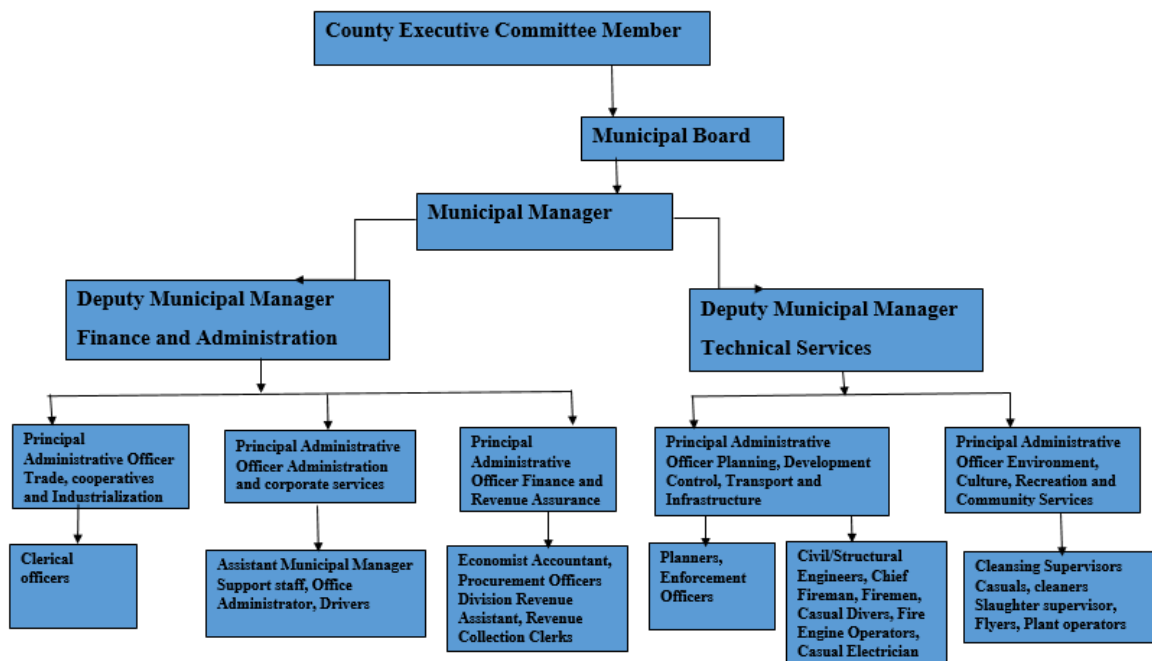

3.2 Municipal structure and functions of Key Kitui Municipality Personnel (Organogram)

Kitui municipality is headed by a Municipal Manager who is supported by two deputy Municipal Managers each heading a specialized department with relevant staff working under each section head. The sections include:

- a) Finance and Administration composed of; Administration and corporate Services, Finance and Revenue assurance, Trade, Commerce, and Industrialization
- b) Technical services composed of; Physical Planning, Infrastructure, Transport and Development Control, Environment, Culture, Recreation, and Community Development.

Diagrammatic presentation of Kitui Municipality Organogram

| THE CURRENT KITUI MUNICIPALITY ORGANOGRAM

3.2.1 The Municipal Manager

The Municipal Manager implements the decisions and functions of the Board of the Municipality as provided for under Section 20 of the Urban Areas and Cities Act.

The Municipal Manager performs the following functions as outlined in Section 6.4.2 of the Kitui Municipal Charter:

- a) Execute the decisions of Board of the Municipality.
- b) As the Accounting Officer of the Municipality, prepare and present for approval to the County Executive Committee and/or the County Assembly, annual budget estimates for implementing the development programs and recurrent expenditures of the Municipal Management.
- c) Be principally responsible for building and maintain a strong alliance and effective working relationships between the Board of the Municipality and the civil society, private sector and community-based organizations;
- d) Cause to be prepared, transmitted to the Board of the Municipality, and distributed to the public at least an annual report on the activities and accomplishments of the departments and agencies comprising the executive branch of the Municipality.
- e) Act as an ex-officio member of all committees of the Board of the Municipality;
- f) Such other functions as the County Government, by order, confer upon the Municipal Manager.

The municipal manager is supported by two deputy municipal managers who head respective specialized municipal departments. The roles of each departmental head are as follows:

3.2.2 Deputy Municipal Manager: Administration and Finance

- a. Overseeing staff affairs.
- b. Facilitating and coordinating citizen involvement in policy development and service delivery.
- c. Providing support for administrative functions.
- d. Supervising the preparation of departmental budgets, including analyzing work programs and budget requests.
- e. Planning, developing, implementing, and evaluating various functions and activities related to major operations.

3.2.3 Deputy Municipal Manager-Technical Services

- a. Assist the Municipal Manager in ensuring effective service delivery in the Municipality
- b. Coordinating development activities to empower the residents;
- c. Assist the Municipal Manager in facilitating and coordinating Citizen participation in development of policies and delivery of services;
- d. Assist the Municipal Manager in promoting a safe and healthy environment;
- e. Assist the Municipal Manager in Controlling land use, land sub-division for various development purposes as may be delegated;
- f. Assist the Municipal Manager in plans, develops, implements and evaluates related programs and activities of major functions;
- g. Oversees the preparation of budget for departmental functions including revenue plans and analysis of work programs and budget requests; and
- h. Any other relevant duties that may be assigned from time to time.

3.3 Staff establishment and Human resource requirement for Kitui Municipality

For the effective realization of the Kitui Municipality IDEP, adequate human resource is a key requirement. Below is an analysis of the current staffing level against the optimum required staff establishment.

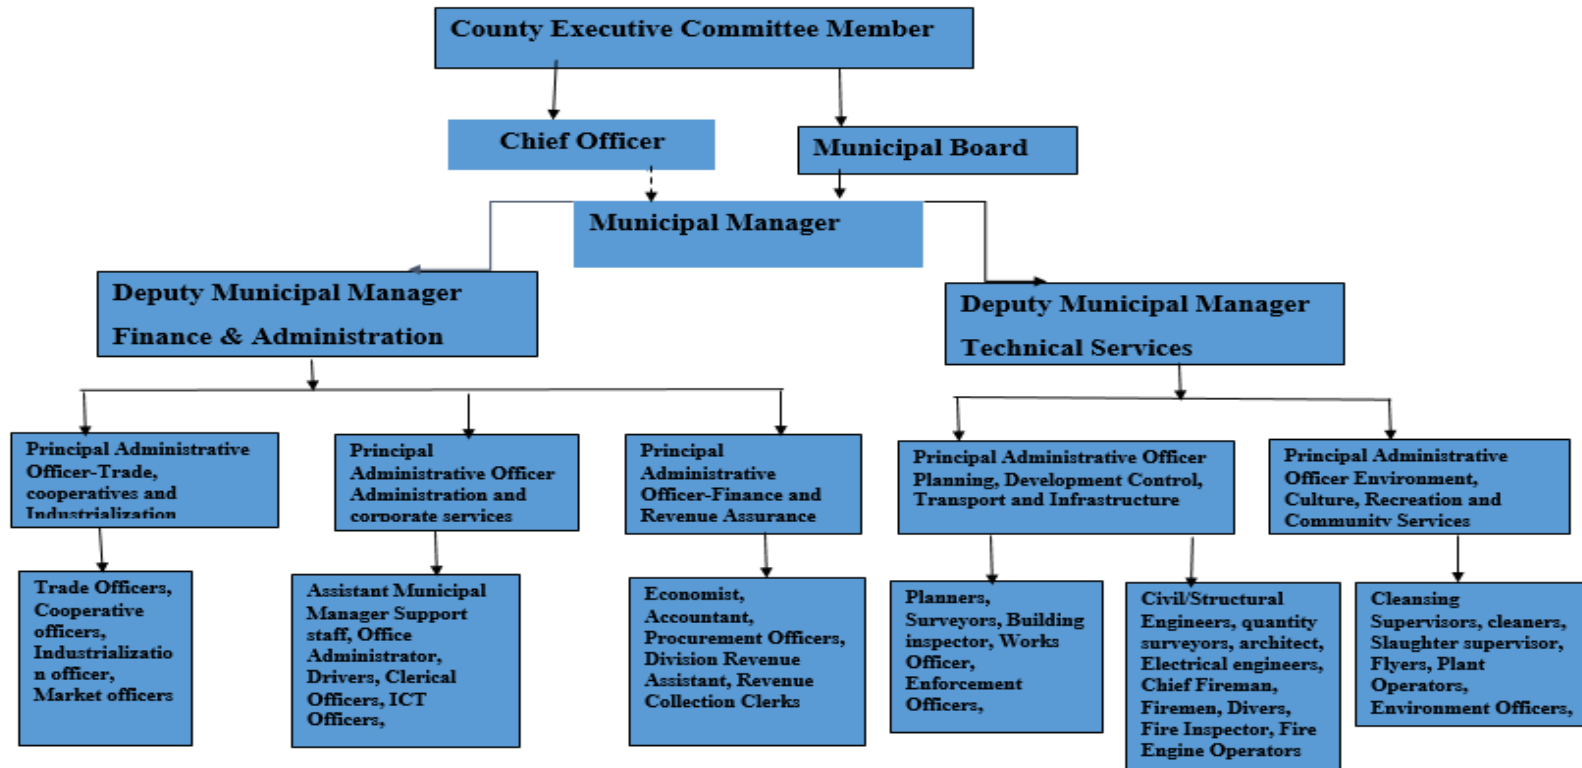

Department	Position	Optimum	Current in-post	Remarks
Kitui Municipality	Municipal Manager	1	1	Currently on acting capacity
	Deputy Municipal Manager (Finance and Administration)	1	1	

	Deputy Municipal Manager (Technical Services)	1	1	
Administration and Corporate Services	Principal Administrative Officer-Administration and Corporate Services	1	0	
	Assistant Municipal Manager	1	1	
	Support staff	2	2	
	Office Administrator	1	1	
	Clerical Officers	2	2	
	Drivers	4	4	
	ICT Officers	1	0	
Finance and Revenue Assurance	Principal Administrative Officer-Finance and Revenue Assurance	1	0	
	Senior accountant	1	1	seconded
	Senior Economist	1	1	seconded
	Procurement officer	2	2	seconded
	Revenue Collection Clerks	30	30	
	Division Revenue Assistant	1	1	
Trade, Commerce and Industrialization	Principal Administrative Officer-Trade, Commerce and Industrialization	1	1	
	Trade officer	2	0	
	Cooperative Officers	1	0	
	Industrialization Officer	1	0	
	Market Officers	1	0	
Planning, Development Control, Transport and Infrastructure	Principal Administrative Officer-Planning, Development Control, Transport and Infrastructure	1	0	
	Principal Civil /Structural Engineer	2	0	
	Principal Physical Planner	2	0	
	Quantity surveyor	1	0	
	Works officer	1	0	
	Building inspector	1	0	
	Surveyor	1	0	
	Architect	1	0	
	Electrician	1	0	
	Enforcement Officers	20	18	
	Chief Fireman	1	1	
	Firemen	5	1	
	Fire Inspector	1	0	
	Divers	3	2	Current divers are casuals

	Fire Engine Operators	2	2	
Environment, Culture, Recreation and Community Development	Principal Administrative Officer-Environment, Culture, Recreation and Community Development	1	1	
	Cleansing Supervisors	2	1	
	Cleaners	200	147	Current Cleaners are casuals
	Slaughter Supervisor	2	1	
	Flyers/Skinners	4	0	Previous staff retired
	Environment officers	1	0	
	Community Social Worker	1	0	
	Plant Operators	5	3	

3.4 Proposed structure

THE PROPOSED KITUI MUNICIPALITY ORGANOGRAM

3.5 Other Key actors in the realization of the Kitui Municipality Integrated Development Plan

3.5.1 County Executive

Governor/ Deputy Governor

The office of the Governor; who is the chief executive of the county provides overall leadership in the county's economic, social and political governance and development. The Governor heads the county executive committee and is accountable for the management and use of the county resources while promoting and facilitating citizen participation in the development of policies and plans, and delivery of services. The Deputy Governor is the deputy chief executive of the county and deputizes the governor in the execution of the executive functions.

County Secretary

The County Secretary is the head of the county public service and is responsible for arranging the business, and keeping the minutes of the county executive committee subject to the directions of the executive committee. The County secretary convey the decisions of the county executive committee to the appropriate persons or authorities and perform any other functions as directed by the county executive committee.

County Executive

The executive authority of the county is vested in and exercised by the County Executive Committee. The Executive comprises of the Governor as the chairperson, Deputy Governor, County Secretary and ten County Executive Committee members (CECM) appointed by the Governor with the approval of The County Assembly (CA).

County Executive Committee Member for Lands, Housing and Urban Development (LHUD)

The County Executive Committee for LHUD is one of the 10 executive members appointed by the Governor and approved by the County Assembly. The CECM is also member of the Board of the Municipality charged with supervising the administration and delivery of services in in the decentralized unit. The main roles of the CECM are to implement county legislation, implement within the county national legislation to the extent that the legislation requires, manage and coordinate the county administration and its departments. In addition, the CECM may prepare proposed legislation for consideration by the county assembly as well as provide the county assembly with full and regular reports on matters relating to the county.

3.5.2 County Assembly

The County Assembly is the legislative arm of the county government and is responsible for making laws that are necessary for the effective performance of the county functions in the fourth schedule of Kenya Constitution 2010. It is composed of the Members of County Assembly (MCAs) both elected and nominated, the Speaker and the Clerk as an ex Official. The function of the County Assembly includes: Vetting and approving nominees for appointment to County public offices; Approving the budget and expenditure of the County

government in accordance with Article 207 of the Constitution, and the legislation contemplated in Article 220 (2) of the Constitution, guided by Articles 201 and 203 of the Constitution; approve the borrowing by the County government in accordance with Article 212 of the Constitution; Approve County development planning; and perform any other role as may be set out under the Constitution or legislation. The County assembly also receives and approves development plans, policies, financial bill, and enact county appropriations, approve budget estimates and county government borrowing.

3.5.3 County Public Service Board

The County Public Service Board is charged with establishing and abolishing offices in the County public service and appoint persons to hold or act in offices of the County public service. The Board also confirm appointments, exercise disciplinary control over, and remove, persons holding or acting in those offices, facilitate the development of coherent Integrated human resource planning and budgeting for personnel emoluments and advise the on human resource management and development. It also advises the county government on implementation and monitoring of the national performance management system in counties; make recommendations to the Salaries and Remuneration Commission, on behalf of the county government, on the remuneration, pensions and gratuities for county public service employees.

3.5.4 National Government

The National Government is responsible for giving policy guidelines on the devolved functions and financing the programmes in the IDEP through disbursements of equitable share, conditional grants and equalization fund. The grants are channeled through programmes such as the Kenya Urban Support Programme (KUSP) upon meeting minimum set conditions.

CHAPTER 4. KITUI MUNICIPALITY FIVE YEAR DEVELOPMENT PRIORITIES, PROGRAMMES AND PROJECTS

Introduction

This chapter gives a brief overview of the municipality's development priorities, programmes, Flagship projects and cross-sectorial linkages. The chapter further provides the spatial development framework, which is key to the realization of the municipality's priorities, programmes and projects.

4.1 Spatial Development Framework

Integrated Spatial Urban Development Plan implementation and enforcement shapes the structure and urban fabric of town's growth based on structuring elements¹ such as natural growth constraints and opportunities. It provides long term development framework for Kitui town. It indicates broad land use classifications, transportation corridors in relation to land uses, location of utilities and services. The plan in total shows the form, shape, urban development limits, trends and pattern of developments that Kitui town will take in future.

4.2 The Spatial Plan

Based on spatial development strategy, spatial plan has been classified into following three categories.

Re-densification of core area;- This is currently the developed zone and covers up to the inside and outside proposed ring road. It includes the CBD, Kitui township, Kyanika, Kaveta and civic area. This is the zone for redevelopment and regularization.

New growth towards the west:- This is currently the undeveloped zone lying between proposed ring road and Kitui bypass. This is the zone for redevelopment and new proposals.

Decentralized development with medium growth in new area: The planning area consists potential growth centers such as Chuluni, Katulani, Ithiyani, Muluu, Kyambusya, Matinyani, Museve, Mulango, Kithumulani, Kithumula and Itoleka. These growth centres development shall be promoted as self-sustainable nuclei. Based on location, connectivity, present function and growth potential development theme has been given to each growth centres. These development themes are guiding in preparation of land use map for growth centres. Following table describes development theme of each growth centres.

Town and Growth Centres and Their Development Theme

Sr	Growth Centres	Development Theme
1	Kitui Town	Administrative town with multifunctional activities
2	Chuluni	Transport and Tourism Center
3	Museve	Agriculture town
4	Matinyani	Administrative and Knowledge Hub
5	Kyambusya	Industrial Centre
6	Mulutu	Industry and Knowledge Centre
7	Ithiani	Trading Center
8	itoleka	Trading Center
9	Katulani	Administrative Center
10	Mulango	Trading Center
11	Kithumulani	Trading Center
12	Kithumula	Trading Center
13	Mutuni	Trading Center

4.3 Land Use Proposal

The proposed land use plan for Kitui indicates broad land use zoning and allocation of land under various uses. It has been prepared on the basis of the population projection and demand gap assessment for various sectors such as residential (housing), commercial, education, public purpose, recreation, public utility and transportation. During the process of formulation of development plan, future needs of the town in terms of physical features and constraints for various activities of Kitui town have been taken into account. The plan has been prepared to cater to the requirements of approx. 383216 persons for the horizon year 2035 for the planning area.

Proposed Land use distribution

Kitui Municipality							
S/No	Land Use	Existing Area in km ²	% Area Nat	Proposed Area in km ²	% Area Nat	Total Area km ²	% Area Net
Developed Area

Sub Total of Undeveloped Area		539.99			-	521.63	
Total		580.37	100		-	580	100

Land Use Distribution for Planning Area

4.4 Kitui Planning Area Rationale for land use

The land use proposal has been derived considering strategic location, demographic characteristics, growth potential, main functions, improved connectivity (distance) and the proposed rail link to some of these growth and trade centres. The following table describes rationale of land use for Kitui town and growth centres.

S/No	Town Growth Center	Existing Function / Potential	Proposal	Proposed Town Function
1	Kitui Town (Projected Population- 250,000, Area- 2456 Ha)	Strategic location, situated on national highway B7 (Kitui Nairobi road), Administrative Head Quarter	Setting up of Centre of Excellence for Business and Industries	Administrative town with multifunctional activities
		Business Centre /Trade & Commerce Activities	Develop Trade Centres; Organize Exhibition, Trade Fair, Marketing Yard etc.	
		Agriculture / Industrial Development	Setting up Light and Medium Industries and Storage, go-downs etc.	
		Tourism –Natural / Cultural / Built Heritage	Promote Local Artists and Facilitate Marketing, Skill Development	
		Develop as Education Hub	Set up University for higher education and research	
2	Chuluni (Projected Population- 8000)	Strategic location situated on national highway B7 (Kitui Nairobi road)	Transport Town- Proposal for railway station, truck terminal for compatible development ,	Transport hub with a Tourism function.
		Transport Corridor (Junction of Mui and Kibwezi road)	Other facilities such as hotels, commercial, education, recreation have also been proposed to serve population	
		Proximity to Kitui (8.5Km) Trading Centre	of 8000.	

S/No	Town Growth Center	Existing Function / Potential	Proposal	Proposed Town Function
3	Kyambusya (Projected Population 5,000)	Strategic location situated on national highway B7 (Kitui Nairobi road) , Proximity to Kitui, & connectivity by Road and rail	Industrial - Warehouse and Industrial Park,	Industrial hub
		Transport Corridor	Transport center - Railway station and Truck Terminus,	
		Agriculture Produce & Marketing	Recreation- Stadium,	
		Development of Service & Cottage Industries, Development of Trade Centre	Education, Entrepreneurial Institute College	
4	Matinyani (Projected Population 3,000)	Strategic location situated on Kitui Matinyani road , Proximity to Kitui, & connectivity by Road and rail	Administrative - Office Complex, Police Station	Administrative cum Knowledge hub
		Administrative- Matinyani District Headquarter,	Education-Youth Polytechnic, Training Institute, College	
		Education- DEB and other schools	Recreation-Zonal Park and Playground	
		Recreation- Kalia Primary Playfield Commercial- Trading Centre	Commercial- Informal Market, Expansion of commercial areas;	
5	Mulutu (Projected Population 3,000)	Strategic location situated on Kitui Machakos road , Proximity to Kitui, & connectivity by Road,	Industrial-Industrial Park (Setting up of Light Industries, Fruit processing)	Industrial center

S/No	Town Growth Center	Existing Function / Potential	Proposal	Proposed Town Function
		Potential for Industrial Development	Education-Entrepreneurial Institute	
		Commercial-Trading Centre	College, Hotel & Tourism Management Institute Commercial-Expansion of commercial areas;	
6	Mutuni (Projected Population 4,000)	Existing technical institute, Several schools	Medical College	Knowledge center
7	Museve (Projected Population 8,000)	Strategic location situated on Kitui Miambani road , Proximity to Kitui,	Residential	Agricultural town
		Trading Centre	Agri-based industries	
		Growth Potential of economic activities	Commercial-Expansion of commercial areas;	
8	Katulani (Projected Population 5,500)	Strategic location situated on Kitui Kavisuni road and proposed rail , Proximity to Kitui,	Residential	Administrative center
		Trading Activities	Commercial-Expansion of commercial areas;	
9	Ithiani	Strategic location situated on Kitui Tiva road , Proximity to Kitui,	Recreational-Zonal Playground	General purpose trading center
	(Projected Population 5,000)	Education, Other schools Other schools	Education -Youth Polytechnic, Special school	
10	Itoleka (Projected	Proximity to Kitui,	Education--Youth Polytechnic	General purpose trading center

S/No	Town Growth Center	Existing Function / Potential	Proposal	Proposed Town Function
	Population 5,000)	Education-Other schools Administration-A.P Line	Administration-Administration Land use	
11	Kithimula Projected Population 4,000)	General function trading center	Promote Innovation in Agriculture and awareness programme for Farmers Setting up Marketing Facilities and Transport Services, Storages	General purpose trading center
		Marketing of Goods	Develop Market Yard and Processing of Agro Products	
			Setting up small scale Industrial Estate	
12	Mulango (Projected Population 3,500)	General function trading center	Promote Innovation in Agriculture and awareness programme for Farmers Setting up Marketing Facilities and Transport Services, Storages	General purpose trading center
		Marketing of Goods	Setting up of Vocational Training for skill development	
13	Kithumulani (Projected Population 4,500)	General function trading center	Promote Innovation in Agriculture and awareness programme for Farmers Setting up Marketing Facilities and Transport Services, Storages	General purpose trading center

S/No	Town Growth Center	Existing Function / Potential	Proposal	Proposed Town Function
		Marketing of Goods	Develop Market Yard and Processing of Agro Products , Setting up small scale Industrial Estate	

Kitui Municipality Sector Priorities and Strategies

Sector Priorities	Strategies
Strengthen the economic competitiveness of Kitui municipality	Provision of better and quality working environment for businesses
	Provision of street lights /security lights in the CBD and its environs to spur a 24hour business economy and enhance security.
	Market construction and improvement in the entire municipality
	Optimization of markets and stalls
	Capacity building of SME's
Enhance town and market cleanliness through sustainable solid waste management	Construction and Establishment of modern kiosks in strategic places
	Engage casual cleaners on daily cleaning of the town and other market centers within the Municipality
	Acquisition of specialized machinery, garbage trucks
	Procurement and supply of assorted cleaning materials and personal protective gear (PPEs)
	Proper solid waste collection and disposal
	Acquisition of land for an integrated solid waste management (landfill)
	Decommissioning and rehabilitation of Kalundu dump site
	Regular education and awareness creation forums on proper solid waste management and general environmental management
Develop relevant legislative policy framework	Promote Public Private Partnership in solid waste and general environmental management
	Review existing legislation documents in respect policies
	Adopt best practices from national government, other Counties and Municipalities
Efficient and effective revenue collection	Develop and adopt Kitui Municipality relevant policies and Bills.
	Instituting strict supervision of revenue collection
	Use of monthly bus stickers instead of daily receipts
	Installation of CCTV cameras in all barriers for close supervision to avoid revenue leakages.
	Review of rates and fees charged in the county for various services
Improve Accessibility and connectivity	Installation of E-revenue which will increase revenue collection and be cost effective.
	Road tarmacking
	Grading and gravelling of existing roads
	Paved walkways
	Road signage
	Opening up new access roads
Spatial Planning of urban centers within Kitui Municipality	Drainages
	Mobilization and commencement of the project
	De-alienation of planning area
	Sensitization of the project
	Preparation of the base map
	Data collection analysis
	Preparation of the draft spatial plan
	Validation workshop
Approval and official launch of the approved plan

Maintenance of Kalundu Dump site	Kitui Town	Kitui Town	Excavation and relocation of wastes from Kalundu dumpsite to Kanyonyoo	7,142,024	✓	✓	✓	✓	Amount of wastes relocated to Kanyonyoo from kalundu dumpsite	Well maintain ed dump site, Well contain ed solid waste
				328,991,043						

Resource Mobilization to Finance the Integrated Development Plan

The resource mobilization strategies applied within the municipality of Kitui stem from the Urban Areas and Cities Act 2011 that gives municipalities the power to perform various functions.

All the functions are dependent on the ability of the municipality to effectively raise and efficiently use revenue. The key focus of the municipal manager and the municipal board is therefore revenue raising, asset management, financial management, debt management, capital financing, and accountability.

Several Strategies for revenue mobilization along with budget projections required to manage the Municipality of Kitui will be employed from key revenue streams including own-source, the equitable share of national revenue, expected conditional grants from National Government and Development Partners as well as the Public-Private Partnerships (PPPs) arrangement.

Sources of resources for implementing Kitui Municipality IDEP

Equitable share (budgetary allocation). The Constitution provides that each sphere of government is entitled to an equitable share of revenue raised nationally to enable it to provide basic services and perform the functions allocated to it. The equitable share is an unconditional allocation. Primarily, the municipality of Kitui is the embodiment of a fully functional Semi-Autonomous Government Agency. It is however funded from budgetary allocation of the County Government of Kitui. The Municipality has a separate vote and operates independently to contribute to the overall county growth. While funding by the County Executive has been made each year, this funding may not be sufficient and sustainable hence necessitating the raising of finances from other areas as discussed below.

External and internal borrowing- According to the urban areas and cities act the board of the Municipality of Kitui is a body corporate with perpetual succession and a common seal and shall, in its corporate name, be capable of—

- (a) suing and being sued;
- (b) taking, purchasing or otherwise acquiring, holding, charging or
- (c) disposing of movable and immovable property;
- (d) borrowing money or making investments;

- (e) entering into contracts; and
- (f) Doing or performing all other acts or things for the proper performance of its functions in accordance with the act or any other written law which may lawfully be done or performed by a body corporate. The board of the Municipality can therefore approach financial institutions of loans for various developments.

The Municipality is therefore in a position to enter borrowing arrangements from various bodies and institutions as well as borrow internally through among other ways floating of municipal bonds. This is however subject to approval by the County Assembly.

External and Internal Grants-Article 202(2) of the Kenyan Constitution provides that in addition to the equitable share, counties may receive additional allocations from the national governments' share of revenue, either conditionally or unconditionally. Unlike equitable share which allows counties an opportunity to pursue local level development preferences, conditional allocations are tied to implementation of specific national policies with clear objectives. Further, the municipality can also benefit from conditional grants, and as such the external grants from the World Bank under the Kenya Urban Support Program.

Own Source Revenue (OSR) - Own Source Revenue mobilization in the Municipality is underpinned by the Constitution of Kenya (CoK) 2010, the Public Finance Management (PFM) Act 2012, the County Government Act 2012 and the Urban Areas and Cities Act 2011. Article 209(3) of the CoK 2010 allows counties to impose property tax, entertainment taxes and any other tax authorized by an act of parliament, as well as charges for the services they provide. The PFM Act provides guidelines for management of county revenues including banking arrangements and appointment of revenue receivers and collectors. To give effect to Article 209(3) of the Constitution of Kenya, counties enact specific laws such as the finance acts that authorize tax collection and receipt of other revenues. Counties also enact sector or source specific legislation such as trade licensing, liquor control and property rating/valuation laws that allow them to regulate various sectors through licensing and permits that are acquired at a fee.

The municipality of Kitui prepares a budget that is subjected to public participation and approval from the County Assembly of Kitui. Section 125 of the Public Finance Management Act, 2012 provides the procedure to be followed in the budget making process at the county level. The municipality budget is incorporated into the County Fiscal Strategy Paper for approval. The county executive then submits the County Fiscal Strategy Paper to the county assembly for approval by 28th February each year. The approved budgetary estimates are approved alongside the County finance bill that sets the recommended rates for various services and commodities within the county. Own Source Revenue raised by the municipality is intended to bridge funding gaps occasioned by inadequate disbursements from the national government.

Resource requirement by sub-programme

The table below outlines the summary of the resources required for the implementation of the projects outlined in the IDEP. The costing of each sub programme is derived from the respective individual project to be implemented in the municipality.

Programme	Sub Programme	Total Kshs
Infrastructure and Development & Control	Infrastructure Development & Control	1,545,000,000.00
	Kitui Town Management	210,000,000.00
	Performance Management	100,000,000.00
Total		1,855,000,000.00
Sustainable solid waste management	Sustainable solid waste management	908,000,000.00
	Public Works Headquarters	120,000,000.00
Total		1,028,000,000.00
Resource Mobilization(Revenue)	Revenue Management and Accounting	300,000,000.00
	Trade And Markets Headquarters	180,000,000.00
Total		480,000,000.00
Sub Total		3,363,000,000.00

Resource mobilization strategies

The strategies for resource mobilization for implementation of the Kitui Municipality IDEP are hinged on the identified gaps/challenges. The strategies give direction and scope of for the municipality over a long term to fulfil its mandate by implementing projects and programmes.

Revenue Challenge	Strategy	Actors
Predominance of manual and semi-automated revenue collection creating loopholes for revenue leakages	Automation of all revenue collection	Board of Municipality of Kitui, Municipal Manager County treasury and revenue collection unit
Inadequate skills and expertise in performing key revenue mobilization tasks such as revenue forecasting, collection, management and assessment of revenue collection.	Internal and external capacity building programmes. Additionally, recruitment of additional staff to support revenue collection.	Board of Municipality of Kitui, Municipal Manager County treasury and revenue collection unit Public service board
Dormant or unexploited revenue sources within the municipality of Kitui.	Generate revenue from service provision, partnership with non- state actors, development grants and loans, expanding the base through trade and tourism, encouraging private investments, and establishing light industries;	Board of Municipality of Kitui, Municipal Manager
Intentional revenue payment evasion and resistance from citizen hence contributing to low achievement of revenue collection targets.	Adequate public participation and civic education to curb low willingness to pay.	Board of Municipality of Kitui, Municipal Manager County assembly of Kitui
Poor investor climate within the Municipality	Host business forums and investor conferences to attract investment and financing into the County;	Board of Municipality of Kitui, Municipal Manager ,Chamber of commerce of Kitui municipality

Revenue Challenge	Strategy	Actors
Legal and policy framework Establishing an effective policy and legal framework is expected to facilitate revenue mobilization through clear guidelines and strategies for tax administration and management	Explore new and innovative financing mechanisms to attract private sector investment through mutually agreed arrangements;	Board of Municipality of Kitui,
Dormant Public Private sector	Pursue PPPs aimed at delivering some of the key projects;	Board of Municipality of Kitui, Municipal Manager
Limited number of Grants available in the Municipality	Preparation of funding proposals to potential financiers and donors for consideration to be done either directly by the communities or by the County Government.	Board of Municipality of Kitui, Municipal Manager

CHAPTER 5: IMPLEMENTATION, MONITORING AND EVALUATION FRAMEWORK

The implementation of this plan will be done in three phases. The projects, activities identified in this integrated plan will be implemented in three phases; short term, medium- and long-term. Short-term actions will be completed within the first year, medium term implementation will run up to the third year while the long-term activities will run till the end of the plan period of five years.

The Government of Kenya has developed a framework for carrying out monitoring and evaluation. This framework links to the performance contracts which are carried out by the line ministries. In addition, performance contracting shall be cascaded down to the individual departments and finally, individual staff. All staff, collectively, will contribute to the final success of the integrated plan.

Kitui Municipality Monitoring and Evaluation template (Appendix 1) for units to use as a template for their work plans.

5.1 Monitoring

Monitoring of the integrated plan is a continuous process. Monitoring takes place through regular and organized reporting of achievements against the set performance indicators. These shall be set against the integrated plan and weighted for each sector. Details shall be contained within customized appraisal forms for the staff of the Board.

A key plank in the monitoring process shall be performance contracting decisions and appraisals. A database of reports shall be compiled and shared regularly with all staff. Both direct and indirect external monitoring shall be through regulatory bodies. Challenges to implementation shall be documented and relevant action plans developed to correct the gaps in the implementation.

5.2 Review

The Integrated plan will be reviewed annually by the board through the annual strategic planning process as envisaged in the urban areas and cities act 2011 amended in 2019, taking stock of changes in the internal and external environments. The process will be aimed at identifying opportunities for improvement and challenges with an ultimate goal to inform strategic direction and budget formulation in the course of implementation of the plan. The review will be based on evidence and data collected during implementation.

5.3 Evaluation

Regular evaluations shall be undertaken throughout the integrated plan period in line with the board's evaluation schedule. The board is expected to develop this schedule once it has started its operations. Evaluations shall be continuous and determine levels of implementation of the plan. This will enable the leadership of board to take corrective action where necessary and ensure public accountability.

Evaluation input will be founded on the examination of performance contracts and departmental work plans. Key direction during both monitoring and evaluation shall be to determine the following:

- i) Whether goals and objectives are being met;

- ii) Whether timelines in the implementation of proposed activities are being meet;
- iii) Whether there is a need to readjust timelines;
- iv) Whether personnel and infrastructure are available to meet the integrated plan requirements;
- v) Whether the resource base is adequate to complete the integrated plan; and
- vi) Whether the sector priorities require revision

Kitui Municipality Monitoring and Evaluation template (Appendix 1)

Ministry/Sector	Programme/ Project	Outcome	Outcome Indicator	Baseline		Mid Term Target	End Term Target	Reporting Responsibility
				Value	Year			
Kitui Municipality	Municipal Road tarmacking	Municipal Road works(Tarmacked)	No. of roads KM tarmacked.	5.73	2022	5	10	Kitui Municipality
	Municipal Road works- grading and gravelling	Municipal Road works graded /graveled	No. of Km of Municipal road improved (grading, gravelling)	20	2022	12	24	Kitui Municipality
	Municipal Paved walkways and drainage system	Municipal Paved walkways and drainage system	No. of square meters of cabro paved walkways & Storm water drains constructed	2.1	2022	8	16	Kitui Municipality
	Outdoor Advertisement and signage within municipality	Outdoor Advertisement and signage within municipality	No of outdoor advertisement masts/ posts erected	35	2022	10	20	Kitui Municipality
	Municipal Road Furniture	Municipal Road Furniture	No. of road signs erected		2022	22	58	Kitui Municipality
	Installation, Reinstallation & Maintenance of Street/Security lights in Municipality(Solar powered with concrete post)	Installed, Reinstated & Maintained Street/Security lights in Municipality (Solar powered with concrete post)	No. of Km of security/ street lights installed/ reinstalled/ /rehabilitated	0	2022	500	1000	Kitui Municipality
	Spatial Planning of urban centers within Kitui Municipality (Kitui Town, Wikililye, Museve & others	Prepared Municipal spatial plan	Approved Municipal Spatial Plan	0	2022	50%	5	Kitui Municipality

Ministry/Sector	Programme/ Project	Outcome	Outcome Indicator	Baseline		Mid Term Target	End Term Target	Reporting Responsibility
				Value	Year			
	Residential area road works opening within Municipality	Residential area road works opened within Municipality	No. of KM of road works opened.	11	2022	12	24	Kitui Municipality
	Development of Municipal policies, By Laws and other related Legislations	Municipal policies, By Laws and other related Legislations	No. of policies approved	0	2022	50%	5	Kitui Municipality
	Formulation and Review of Municipality Integrated Development Plan and Strategic plan	Reviewed Municipality Integrated Development plans	No of times reviewed Municipality integrated development plan	0	2022	50%	1	Kitui Municipality
	Improvement of Kitui Municipal Disaster Management Unit	Constructed Fire station and Capacity Building	Fire station constructed and No. Staff trained	0	2022	50%	1	Kitui Municipality
	Cleaning of Municipality CBD & other Trading Centers and markets	Cleaned Municipality CBD & other Trading Centers and markets	Number of casuals engaged to clean	152	2022	230	240	Kitui Municipality
	Acquisition of Assorted tools and PPEs	Purchased assorted tools and PPEs	Assorted tools and PPEs procured and issued for use by cleaners - % of cleaners issued	85%	2022	50%	100%	Kitui Municipality
	Acquisition of Vehicles and specialized machinery	Acquired Vehicles and specialized machinery	Number of specialized machineries procured and in use	3	2022	2	4	Kitui Municipality

Ministry/Sector	Programme/ Project	Outcome	Outcome Indicator	Baseline		Mid Term Target	End Term Target	Reporting Responsibility
				Value	Year
